1. You must wear cotton or wool socks (and underwear for men) to minimize the potential of chilblain and other potential injuries from overexposure to cold temperatures;
2. Sessions are limited to 3 minutes per session to minimize the potential for such adverse effects from overexposure to cold temperatures;
3. During the session, you must ensure that your head remains above the level of, and avoid inhaling, gasiform air (the cloudy gas circulating in the cryochamber); while non-toxic, it is devoid of oxygen and may cause shortness of breath, fainting, or other conditions;
4. You must immediately notify the attendant and end the session if you at any time experience any physical or mental discomfort, problems, pain or anxiety;
5. Abnormal skin sensitivity to cold may be caused by certain foods, cosmetics, lotions, piercings, or medication, including but not limited to, tranquilizers and high blood pressure medication – do not use WBC if you have reason to believe you have come in contact with or ingested any such product;
